Suite 830  
Los Angeles, CA 90039

August 14, 2011

To Whom It May Concern:

I had the pleasure of interning at Design Vidal the summer of 2010. The real life experience I received while working side by side with Karen Vidal proved extremely helpful not only as I finished my senior year at University of Missouri, but also as I entered the real world. Interning at Design Vidal allowed me opportunities to learn how to create a good rapport with clients, the sort of skills that can't be taught inside a classroom and gave me an edge on my competition in the job market.

During my time at Design Vidal, my responsibilities included: developing floor plans, elevations, and detail drawings from site measurements, offering creative input when needed, creating 3D drawings, and running errands for Karen when needed.

Going on job sites and receiving face-to-face contact with clients gives you the kind of confidence that can only be had by doing. Design Vidal had patience while I became more comfortable with an unfamiliar task and helped improve the skills I already had.

I highly recommend this internship to anyone looking to broaden his or her scope of the design world.

Sincerely,

Mallory Willbrand
